

Spatial Character

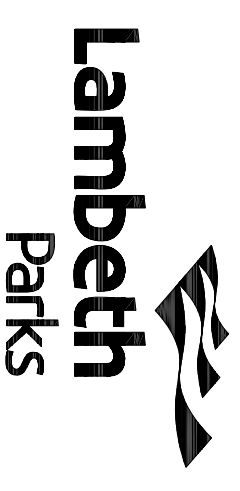

The character of the park is enlivened by subtle changes in level and enveloped by a canopy of mature trees creating an intrinsically attractive space.

Open spaces

- 1 Little used space with change of level serving as buffer to road
- 2 Central, multi use, grassed space giving the park a sense of space
- 3 Well used tennis court within less well used area

Enclosed spaces

- 4 Limited dog area on gently elevated ground
- 5 Under used multi use games area
- 6 Spacious play area on two levels with picnic tables
- 7 Flat, grassed play space for 1'o'clock club and nursery
- 8 Rose and Lavender gardens on former bowling greens, providing a quiet but visually cluttered space
- 9 Narrow un-used space making a limited visual contribution to the park

Project: Vauxhall Park Management Plan

Dwg. title: Spatial Character
